Discussion/Feedback

We would like to continue offering relevant fiscal training to IRC members. As such, we would like to conduct a survey to help us identify fiscal topics of interest. Please provide suggestions for survey questions which would help us in the development of future training for our Council.

2 responses

These are an awful lot of items to go through in an asynchronous manner. Let's not try and vote this way. It would be much better to have a meeting and pare some of these items out for approval. Many of them are not controversial at all and could get approved without discussion. Others need to be talked about quite a bit more.

Budgeting, budget assessment, FON and other rules we have to follow, reserves, budget categories, types of budgets
